This is a heavy blow to the Radicals. It
has been their whole study to radicalize has been their whole study to radicalize as many of the Southern States by the [#T c tl pl l id e l d shelling process of "reconstruction" as possible and to prevent the others from voting. It mattered not to them that the whole reconstitution is the process of "reconstruction" as possible and the design of the state of th tered not to them that the whole reconstruction legislation was, in the language of their late leader, "outside of the Constitution." It was a thing about which they ware themselves no concern that the Constitution is a constitution in the constitution in the constitution is a constitution in the constitution in the constitution is a constitution in the constitution in the constitution is a constitution in the constitution in the constitution is a constitution in the constitution in the constitution is a constitution in the constitution in the constitution in the constitution is a constitution in the gave themselves no concern that the Con-stitution explicitly declares: "Eacn State HALL appoint, in such manner as the legelectors equal to the number of Senators To the Eddor of the I

In spite carring of the military domination, the grinding oppression, the enfranchising of negroes, and disfranchising of white men-in spite of all the wrongs and usurpation and tyranny that have been resorted to within the last three years to radicalize the South, described with the last three years to radicalize the south, described with the last three years to radicalize the south, described with the last three years three the Southern electoral vote will be almost,

But it is said that the Radicals diough and co they cannot prevent Virginia, Texas, and a Mississippi from voting at the Presidential election, expect to render their action nuratory by refusing to count their votes has gi The past has taught us how utterly want brands is t ing in principle and patriotism the Relical leaders in Congress are, and we have no to reason to doubt that if they could safely Trotimony of its 1-1-1- at they could safely venture upon such a step they would not be to be to be the bars, fur it is any other three States we have mentioned but as many more as were necessary for the tri to Lin and umph of their ticket But they dare not all in a cold of t.
